My life is pretty flexible, if the EPA or you need anything here or in Durango, please let me know. I would be happy to act as a 'go-fer' anyway anyhow.

If nothing else comes up, I am considering attending the Colorado Springs meeting, as the agenda is good:

Sarah Hunke from Colorado Springs Utilities will be discussing chemical storage and use by Utilities as one of our regions RMP sites.

Victor Duckarmenn from Peterson Air Force Base. Victor will be talking about the use of drones for emergency response organizations.
